## BECKER IS GIVEN 20 DAYS SALARY BY CIRCUIT COURT

FORMER GREEN COUNTY JUDGE ALLOWED PAY FOR SHORT TIME.

LAST OF SUITS  
Becker Performed Duties Until Judge Was Named for Vacancy.

Holding that J. M. Becker, Monroe, former Green County judge, was entitled to compensation for the unpaid period from September 1 to September 19, 1918, Judge George Grimm on Wednesday handed down his decision in the famous Becker vs. Green county suit in the circuit court.

On August 7, 1918, the plaintiff, being then the elected and qualified county judge of Green county, was convicted in the United States court for violation of the federal espionage act. This conviction was subsequently reversed and annulled by the United States circuit court of appeals, but, until set aside, it operated to create a vacancy in the office of the county judge. To fill the vacancy, the court named J. M. Becker.

## POLITICAL ECONOMY LESSON TAUGHT TO CAL AT EARLY AGE

[BY ASSOCIATED PRESS]  
Washington—President Coolidge received his first lesson in political economy and a striking lesson in domestic economy during the Garfield-Hancock campaign of 1880 when he was 8 years old.

Speaking informally at the annual meeting of the Ohio Society of Washington last night, Mr. Coolidge told this story of an incident of the Garfield-Hancock campaign. "It was during that campaign that I, as a small boy, approached my father, who was a very good business man, with the proposition that he should furnish me with a penny to buy some candy. He told me that we were in the midst of a political campaign and that there was a probability, a possibility at least that we were going to elect a democratic president. Such an action, he said, would undoubtedly be followed by hard times, and therefore it was necessary to economize. "That was good, sound doctrine, I think; anyhow it had to do for me. But I recall that the next morning the election and as soon as the news reached our town that James A. Garfield had been chosen, President, I went to my father and he told me the result indicated we were to continue to have a republican administration and that that prospect of election I was able to secure the advance of the sum I had asked."

## TROUBLE DEVELOPS IN COUNTY BOARD OVER DANCE LAW

DRAFAHL LEADS MOVE TO RECONSIDER MEASURE RECENTLY PASSED.

OBJECT TO FEE  
\$10 Per Dance Claimed Too High—New Roads Added to County System.

[BY ASSOCIATED PRESS]  
The county board at its afternoon session, Wednesday, voted, 10 to 3, to reconsider the dance license ordinance adopted Jan. 17, and the matter was referred back to the special dance license committee for an hour's conference, cutting the \$10 per dance figure to \$5. Those voting against reconsideration were Supervisors A. C. Brown, Arthur Heinzel, H. H. Brown, Jones, Hainfleisch, Moneley and Woodruff.

Possibility that the dance hall ordinance could be reconsidered, learned as the matter of great import when the Rock county board of supervisors reconvened here Wednesday morning. A motion made by Supervisor Frank Hainfleisch, that action taken by the board be rescinded, was ruled out of order, but it was expected a fight would be staged Wednesday afternoon, with the proper resolution to reconsider being introduced.

General objection to the ordinance from those who favor reconsideration seems to be the \$10 inspection fee for each public dance, which is deemed excessive. The midnight closing hour is also protested. Some supervisors are apparently in the same position as expressed by George Doty, Edgemoor supervisor, who declared he is opposed to the ordinance, stating the proprietors of Cliff Lodge near Indian Ford as running a clean place, but who would be forced out of business by the ordinance. It was announced that the session Wednesday morning will be held at 10 o'clock.

## SNOW PLOW PUT TO WORK ON ROUTE 20

Demonstration of Tractor Drawn Outfit Held on Pleasant Street.

With the arrival here Wednesday morning of a special snow plow to be used with a powerful tractor, work was to have been started Wednesday afternoon on a trial job of snow removal under auspices of the Janesville Chamber of Commerce.

"We shall test out the machine on Pleasant street first," said Oscar N. Nelson, manager of the Chamber, Wednesday morning. "That was one of the worst snows out of town during the recent severe storm."

Thursday the outfit will be tried on the Edgemoor road. The machine is to demonstrate the practicability of the tractor plow, which is to be used on the main roads open in automobile and other traffic the year round. It is part of the plan being worked out by representatives of every township, city and village of Rock county in an effort to prove to the board of supervisors that keeping the highways open can be done with the light equipment and by having such machinery in strategic places.

Snow and ice were melting rapidly, Wednesday, and pouring down in streams of water. The river rose slightly during the night, but it is still lower than the mean level. The temperature at noon was 34 degrees, rising from 24 at 7 a. m. A member of the Gazette editorial staff insists he heard a robin Wednesday morning.

## Charges Official Misconduct; Quit at Once, Demand

[BY ASSOCIATED PRESS]  
Madison—Governor Blaine today demanded the resignation of R. C. Sharp as a member of the state board of control, following Sharp's refusal to resign as the governor requested. Inefficiency and official misconduct were given by the governor as reasons for demanding the resignation, he stated in a letter addressed to Mr. Sharp.

Court proceedings to compel Mr. Sharp's resignation will be instituted immediately unless he tenders his resignation, it was indicated by officials.

In his letter to Mr. Sharp, the governor enclosed a resignation blank and requested that Sharp sign it and return it "without delay." "You having refused to present your resignation as a member of the state board of control, as requested by my secretary, it becomes my duty to demand that your resignation be presented immediately," Governor Blaine's letter said. "The reason for insisting upon this resignation is your inefficiency and official misconduct as a member of the board."

Mrs. Elizabeth Kading, chairman of the board of control, and John Morrissey, the third member, declined to make statements regarding the request for Mr. Sharp's resignation. It is understood from other officials, however, that the governor's action results from differences between the chief executive and Mr. Sharp and from severe criticism against the control board by institutional officials and others in recent months.

It has been known for several days that the resignation of a member of the board was under consideration. Mr. Sharp could not be reached for a statement this morning.

Statement Refused.  
Governor Blaine declined also to make any statement of specific charges against Mr. Sharp, stating that the entire matter will be placed on official record when court proceedings are held.

Mr. Sharp was appointed to the board of control last July by Governor Blaine. Prior to his appointment, he was secretary of the state civil service commission. He is a member of the state senate. During the last year, heads of several institutions under the control board have resigned and several employees in the state department. It is reported that the governor is considering John H. Hannon, present secretary of the board, for Mr. Sharp's place.

## SENATOR CHARGED WITH LOW MOTIVE

Heflin Challenged by Republican Leader to Push Measure.  
[BY ASSOCIATED PRESS]  
Brownsville, Tex.—Challenging Senator Heflin, democrat, of Alabama, to press his resolution introduced in the United States senate Monday, charging that an effort was being made to stifle an inquiry into land frauds in Texas, R. B. Cragger, republican national committeeman for Texas, in a statement here today, declared Mr. Heflin was motivated by the "lowest of political motives."

Mr. Cragger says he was a member of a committee of the Grande valley citizens' league, which met in Washington, D. C., last week, to protest against the letters being sent out by the department of agriculture, which were "damaging to valley interests." Copies of the letters were secured by the valley chamber of commerce, and at a joint meeting of the various chambers of commerce a committee of protest was organized, and a committee appointed to go to Washington, to pay a visit to the department of agriculture.

The department of agriculture was convinced that the form of the letter they had been sending out was unfair and they agreed to change the form, Mr. Cragger said.

## PRESS FOR VOTE ON ANNULMENT OF OIL LAND LEASES

PARTY SENATE LEADERS PUSH PROPOSAL ON FLOOR.

COUNSEL CHOSEN  
Chicago Lawyer and Former Attorney General Gregory Are Selected.

[BY ASSOCIATED PRESS]  
Washington—Both republican and democratic leaders in the senate pressed today on the Walsh oil lease annulment resolution. The debate was renewed immediately after the senate convened, Senator Norris, republican, Nebraska, a former member of the oil committee, making an impressive exposition of his views.

The investigation into the leasing of oil reserves has shown clearly, he asserted, disregard of the government policy of land disposal by congress, and of the laws enacted to carry out that policy.

Evidence is gathered.  
President Coolidge conferred at length today with Senator Straw, who, with Thomas W. Gregory, will act as special government counsel and immediately afterward Mr. Straw began the collection of evidence.

Just before the senate renewed its floor discussion, the oil investigating committee heard four physicians testify that present condition of former Secretary Heflin does not warrant his appearance at a public hearing. The committee then decided to send a medical commission of its own to examine him.

Mr. Heflin reappeared at the committee room during the morning and requested that the committee hear him, but adjournment was taken until Friday without his being placed on the stand.

Legal Says Admiral.  
New Admiral Lattimer, judge advocate general of the navy, told the senate committee today that in December, 1921, he informed Secretary Denby it would be legal to enter into a contract with the Heflin interests for the construction of tankers at Pearl Harbor, Hawaii, as a part of their lease to the California naval oil reserve.

The admiral said he based his opinion on authority granted the department of the navy to enter into an exchange of oil and provide storage facilities. This authority, it was brought out by committee members, was granted at the suggestion of Joseph Daniels, then secretary of the navy.

On December 5, 1921, Mr. Denby, the witness said, wrote on the margin of the opinion, opposing the action, discussing exchange and storage of oil: "Do this—B. D."

CHICAGO AND TEXAS LAWYERS ARE CHOSEN BY COOLIDGE.  
Washington—While the senate approached a vote on the naval oil lease annulment resolution, justice officials assembled information obtained through observation of testimony taken by the investigation committee for presentation to the special counsel named by President Coolidge to act for the government in court proceedings.

Selection of Silas H. Strawn of Chicago, republican, and Thomas W. Gregory of Austin, Texas, democrat, as special counsel for the government on the Walsh House to come on, but Secretary Denby, who signed the leases with former Secretary Heflin of the interior department, and former Governor Heflin remained under fire in the senate.

Former Attorney General Heflin, who describes himself as "a lawyer," but never active in politics, and who served as attorney general for four and a half years during the Wilson administration, are not expected to begin their work until the latter part of the week.

Senate discussion of the Walsh resolution, heavily burdened with technical details, concerning chiefly around President Coolidge's Secretary Denby and Attorney General Heflin, already had proceeded 15 hours when it was resumed today, but a vote was in prospect before adjournment, with adoption of a measure generally regarded as a foregone conclusion.

## RURAL WOMEN TO FEATURE PROGRAM

Madison—"Open house" for Wisconsin women will be held at the home economics department of the University of Wisconsin from Feb. 4 to 9. Several hundred Badger housewives will be present to talk over home problems, listen to discussions, and see newer methods of home making demonstrated.

"Better Health for Badger Homes" will be the underlying note of the week's program, but in addition there will be practical talks and demonstrations on foods, clothing, and furnishings for the home.

Dr. Caroline Hodger, noted health specialist from the Elizabeth McCormick Memorial Fund of Chicago, will talk on "The Health of the High School Girl." Other health numbers are: "Police Prevention and Control," by Arnold Jackson; "Relation of the New State Hospital to the Rural Home," by Dr. J. S. Evans; "Diabetic Tendencies and Diabetic Diet," by Dr. L. S. Overhiser; "The Youth Weight Satisfaction and Satisfaction," by Gladys R. L. Case; "The Family Clothing and Health," by Gladys Melosche and Hazel Manning.

One afternoon of the course will be given to floor coverings. In addition to explanations of the use of linoleum, carpets and grass rugs there will be a display of oriental rugs, and an expert buyer of rugs will show various products of eastern looms.

"Short cuts in preparing meals is one of the chief features of the course," declares Mrs. Jones. "When a meal can be prepared in half an hour instead of taking an hour and a half, that other hour is a great possession. There are many ways in which people who expect company may prepare food so the collecting it is a meal may take very little time."

Some of these short cuts will be given, and the preparation and use of "dry butters" will be shown. Clothing specialists will explain in a number of interesting ways how the whole family may be well clothed with little money. The mother will appear in several necessary costumes, one for the kitchen, one for the street and one for the occasional party. The two or three daughters of various ages, the boys, whose clothing must be planned, perhaps made and kept in good order, and the baby who must of necessity have the right clothing, will all appear and the specialists will explain the making of many garments.

Miss Abby L. Marlatt, director of home economics, will give a demonstration on "Foods in Broken Land," and also explain "Wisconsin's Newest Food." What this food is, and how it is prepared, will remain a secret until the demonstration is given.

A dinner for both men and women and a tea for the visiting women will be a means of getting acquainted. The home economics building and the practice cottage will be open for visitors during the course.

Whitewater—A young men's progressive association for the study of political and economic questions has been started by a group of 20 young men. The list of charter members has not been closed, and any man under 25 years of age is eligible in this democratic organization. The chance for round table discussions will develop knowledge of more than one side of a question. Six or seven political affiliations are urged to join, but no special party will be endorsed, as the aim is to get a broad view of today's problems. Gustaf Carlson is president; Kenneth Kyle, vice president; Lyle Fehman, secretary; and Arthur Kriewald, treasurer. Applications for membership may be made to any of the officers.

"Yeah? Maybe we'd better get—out of—Dolly."

Hank nodded. "I don't like the idea, son." "You got to draw the line somewhere."

"Se easier for us maybe if Dolly was—out of it."

"I thought you said just now that what Dolly knew didn't make any difference."

Pap was quick to perceive his mistake. "So I did. I haven't changed my opinion any. I'm only thinkin' of you. You seem to be worried. I have a notion maybe you'd rest easier if Dolly—"

"Are you so sure your notion was all about me?"

"What you mean?"

"Oh, nothing. Only you got pretty well riled up back there when Dolly asked you who was Mundy and George McKee and Shaken. You riled up, I said. You were in front of me, but I could tell by the look of your back you were mad enough to hit."

"Hank died on Hank's lips. Involuntarily he shrank away. It had never before seen such a look on his father's face. It was a look to blast the courage of any son. Hank's face was white as a sheet. His voice when he spoke was low enough. "I didn't catch what you said."

"For the moment Hank was bewildered. He could not fathom the look on his father's face. He said, "I didn't catch what you said."

"Hank nodded again. "I understand. I won't say a word to anybody."

Pap grunted and greatly to Hank's relief, moved the menace of his eyes. Hank began to breathe normally.

"I'm taking you to Dave's ranch. Silence. That's nearest. You'll be all right in a week or two. You got to do it in a day and keep away from red liquor."

"How about the sheriff's office day after tomorrow?"

"You ain't going there. You're

## Dinner Stories

A college graduate, the day after commencement, wandered into a bank and asked to see the president.

"Well, I don't understand."

"Understand this then: You never heard of George McKee, Sun Mundy, or Shaken—the other man. You never heard of any of them. You haven't mentioned their names."

Hank saw. He nodded, gulped, and said, "Yes."

"If you ever speak of these names a second time, they won't be heard of again. You understand? Speak up! You understand?"

Hank nodded his stiff and dry lips with a trembling tongue. "I understand," he said at last.

Pap continued to fix him with his terrifying glare. "Not even to any of the family, I mean."

Hank nodded again. "I understand. I won't say a word to anybody."

Pap grunted and greatly to Hank's relief, moved the menace of his eyes. Hank began to breathe normally.

## STOMACH UPSET?

GET AT THE REAL CAUSE—TAKE DR. EDWARDS' OLIVE TABLETS

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

I have you a bad taste, coated tongue, poor appetite, a lazy, churning stomach, no motion or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 35c and 50c.—Advertisement.

## Cough Scared Him Into Going West

On the way, he found Milks Emulsion, also his health.

"A couple of years ago, I came under the Government's care, being a disabled soldier, and I reckon I have taken pretty near all the medicine that there is on the market. Finally the examining physician of my district told me I wouldn't live six months if I stayed in Maine. So I got scared and started west to find a dry climate, but as far west as I got was Indianapolis and Milks Emulsion.

"I gained 14 pounds on the first four bottles of your Emulsion. I don't give up. I'm on my feet now because it is as damp there as it is in Maine, but I do give Milks Emulsion the credit for saving my life. In addition to my flesh and strength it soon relieved the serious cough that I had, and I improved so fast that I was not long in being able to return home."

"Now I am feeling fine. I feel Milks Emulsion to both my babies and they are as fat as little pigs."—T. J. Edgar, 210 N. 1st St., Portland, Me.

"Don't wait until your weakened condition ruins you. Cause your lungs new building up strength in flesh, and give nature a chance to fight off disease. Milks Emulsion costs nothing to try."

Milks Emulsion restores healthy, natural bowel action. It is a truly effective medicine, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food, and thus builds up strength. Milks Emulsion is strongly recommended to those whose sickness has weakened it. It is a powerful effect of washing and repelling the stomach. It is a powerful effect of washing and repelling the stomach. It is a powerful effect of washing and repelling the stomach.

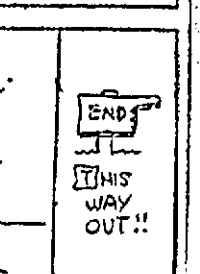

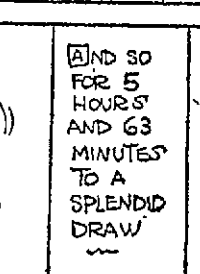

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if you are not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., 1700 N. Main St., Portland, Me. Sold by druggists everywhere.—Advertisement.

## YOUR BABY and MINE

By MYRTLE MEYER ELDRED

Mrs. Eldred is happy to advise all mothers about the care of their children, and to help them in the field of the doctor.

Answer to Mrs. M. M. P. The formula for your six months baby depends largely on its weight, which you projected to state. It is fairly safe to start with a baby of average digestion to start the formula at one-half milk and one-half water and then increase slowly to the correct formula for his weight.

If you will write me this and send me of the case I'll be glad to give you a formula. Give the baby seven to eight ounces at a feeding and use one ounce of sugar daily in the whole day's ration. Divide into five or six bottles according to the time interval that he is used to being fed.

The milk should be at blood heat when fed. Otherwise it will be kept too cold, until ready for use.

Mrs. J. E. J. writes: "Will you tell us in your interest?"

## Heart and Home Problems

Letters May be Addressed to Mrs. Thompson, in Care of the Gazette.

A Strange Lover Dear Mrs. Thompson: I am a girl 29 years of age and in love with a young man 34. I have been going steady with this fellow for five years and I love him with all my heart. About two months ago he asked me to marry him. I asked him to wait a year, but he didn't say whether he would or not.

I gave him a box of candy and I wrote and thanked him. He has never come back nor answered. What should I do?

I always will love him. He is a good christian boy, makes good money and my people all think well of him. Should I write him to come back? Or phone him? He lives only a short distance away.

If we don't go together any longer, or should I send the things back that he has given to me—a camera, pocket book, fountain pen, books, pictures?

E. A. S. SOME ANSWERS E. A. S. HERE: Since you are in your early teens, your mother is quite right in feeling that you are too young to go with boys. I feel for your judgment, a year or two longer and you will not regret having placed faith in her. By no means.

Nearly Died on Birthday "On my last birthday, eight months ago, I had another close call. We had just finished dinner. My stomach began to hurt me, a minute later I lay unconscious. Three doctors worked on me. I was soaked with a cold sweat when I came to. The next week, telling a friend about it, he advised calling May's Wonderful Remedy. Since taking a course of your medicine I have been able to do anything. I have no more pain or bloating and am feeling better than for ten years." It is a simple, harmless preparation that removes the natural mucus from the intestinal tract and allows the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Health and Vitality for Women Health and Vitality can be yours without narcotics or drugs. Keeping well is largely a matter of keeping at bay these dread ailments peculiar to women as evidenced by headaches, nervousness, dragging-down pains, backache and irritability. For fifty years Lydia E. Pinkham's Vegetable Compound has been overcoming such conditions and restoring sick and suffering women to health. It surely pays every suffering woman to try it.

go with the boys since she objects. "SLIM—You are too young to attend a dance in another town unless you are properly chaperoned."

V. O'N—Unless you and the girl were engaged, you had no right to expect her to be true to you to the extent that she would not go with other young men. She should not, however, have given you the impression that she did not go with them. Write and say that now you realize you had no claim on her and it was unreasonable to expect her to stay at home all the time merely corresponding with you. Say that you would like to have her write to you again, and you have no intention of being so unreasonable again. Tell her that you would want her to feel free to go with whomsoever she cares to.

THROWN EYES—I wish I had the power to look into the future for girls and choose their husbands for them with wisdom. You know your heart better than any one else and ought to be able to decide for yourself whether or not you care to spend the rest of your life with the young man. If you are in doubt ask him to wait a while for your decision. Time is a pretty good test of love.

FOOT TREATMENTS Massage is not a cure-all for complexion, scalp or foot troubles, but it is of enormous value in any sort of treatment because it is so stimulating. It is particularly good when treating the feet, for the feet and the hands, being the extremities of the body, receive the poorest blood supply. Massage brings the blood down to the feet, rest them, refreshes them, and helps to do away with many annoying foot troubles.

Foot troubles, even such small ones as weariness or chilled feet, have an extraordinary effect upon the entire nervous system. Next time you feel quite done up, or if you have a bad headache, or are so nervous you want to lie down and cry, or if you are beginning a cold, try a foot treatment. Take off your shoes and stockings; then if you have time let your feet soak for 15 or 20 minutes in a tub of hot water. The water should come up over the ankles and fresh hot water should be added from time to time to keep up the temperature. When they dry, take a generous amount of witch hazel in the palms of your hands and rub the feet thoroughly. Witch hazel is delightfully refreshing. Massage thoroughly well up over the ankles, around under the insteps and under the balls of the

spray the feet with witch hazel, massage and powder. If you have more time soak them in hot water before the massage. If you have still more time, finish by lying down with your feet up on a pillow so they are higher than your head. This is an excellent physiological reason for the tired man who sprains back in his chair and puts his feet on his desk. He could not rest in a better position, however lazy he may appear.

Mrs. D. D.—Unless you can have the treatment from the electric needle, you had better extract the coarse hairs by using a blunt end tweezers. Bleach the finer hair with peroxide. Which hazel is a mild astringent. A stronger one is made from one part white of egg to six parts water. The only time to use egg treatment is in giving the skin a treatment. For there will be a massage with cream. And very cold water or ice used at the end to close pores and tone the skin.
